

The Wagner-Smith Equipment Co. **Model PT-20** is a pole trailer that is designed to hold utility poles. This trailer can be extended simply by setting the brakes, pulling a pin, unlooping electrical cable, and driving forward with the front tongue of the trailer until the desired length is acquired. This trailer is equipped with air brakes with the air supply coming from the pulling vehicle.

## OPERATING FEATURES

- Telescoping frame designed to accommodate multiple pole lengths and maintain proper weight distribution.
- Quick disconnects for air and electrical lines for ease of extension and retraction of the trailer.
- Movable rear bolsters adjust to keep load centered on the trailer.
- 46" wide pole light bar with flags per DOT Regulation.
