

The Wagner-Smith Model T-RC-96X54-12 reel carrier is engineered for efficient transport and controlled payout of large cable or conductor reels. Built for demanding applications, it accommodates reels up to 96 inches in diameter, 54 inches wide, and weighing up to 12,000 pounds. Tool free reel swaps maximize uptime and productivity.

### Key Features

- Reel spindles are designed for quick change and require no additional tooling; two flip-open bearing caps enable fast, tool-free reel changes by simply opening and lifting the spindle straight up.
- Allows a variety of spool sizes for added jobsite flexibility
- Hydraulic brake caliper applies friction to brake discs; hand pump and metering valve provide precise, operator-controlled braking.
