

**Four Drums.
Right-sized Workhorse.**

Designed for distribution work in confined or elevated locations, the SPM-4DP-13.5 delivers four-drum productivity in a skid-mounted package. Powered by truck hydraulics, it simplifies multi-line pulling where space is limited.

Key Features

- Four-drum skid-mounted puller
- Powered by customer-supplied auxiliary hydraulics
- Freewheeling payout without powering the unit
- Brake disc and caliper to prevent accidental payout
- Pole-mount capable for elevated applications
- Simple operation and low-maintenance design
