

WAGNER-SMITH RAISES THE BAR ONCE AGAIN AND CONTINUES TO SET THE INDUSTRY STANDARD FOR LINE PULLING EQUIPMENT THROUGH INNOVATIVE DESIGN AND AN UNPARALLELED LEVEL OF CONTROL. INTRODUCING THE NEW DP-600 !

As industry leaders, we like to challenge ourselves to continually refine, improve and re-imagine our next generation machines, our new 20k puller is no exception.

With our new electronics package and direct drive system we've managed to dramatically improve the operational safety while at the same time allowing unprecedented control during your pull. Our digital touch screen makes operating this unit simple and with our "One Touch" feature the operator only needs to enter the desired pull force and the unit will calculate the pressures required to achieve the desired force.

If speed consistency and control is what you're after then we've got you covered. With fully customizable line tension parameters, the operator can dictate the desired line speed via joystick position and the 600 will maintain that speed regardless of the drum diameter. Our electronics system communicates with the direct drive motors to provide a steady, consistent speed throughout your pull, which means no surprises and an increased level of safety for you and your crew.

T-1DP-600-FT4 SPECIFICATIONS

STANDARD FEATURES	
Levelwind	Hydraulically operated rail type
Engine	325 HP FT4
Front Hitch	Fifth Wheel
Lighting	DOT Regulated LED
Diesel	50 gallon
Jacks	Hydraulically operated
Hydraulic	70 gallon
Suspension	Leaf Spring
Brakes	Full air ABS brake system
Grounding	Mounted center and rear
UNIT PERFORMANCE	
Line Speed	4 mph (continuous from drum I.D. to O.D.)
Full Drum Pull Rating	20,000 lbs.
STANDARD PULLING REEL	
Quantity	1
Diameter	63"
Inside Width	60"
Core Diameter	36"
Maximum Line Capacity	25,000' 5/8" steel rope
DIMENSIONS & WEIGHT	
L X W X H	34' 0" x 8' 6" x 11' 9"
Unit Weight Empty	33,870 lbs.
GVWR	54,900 lbs.
GAWR	34,000 lbs.

EQUIPPED LOCATIONS NATIONWIDE

All equipment is available for purchase and rental through our five locations across the USA. We want to be prepared for all of your demands because we are dedicated to helping the industry whenever you need it.

ASSEMBLED IN THE USA

All Wagner-Smith Equipment Co. equipment are assembled in our state-of-the-art facilities in Lawrenceville, IL and Burleson, TX. Replacement parts are quickly fulfilled from our Burleson, TX location and shipped to anywhere in North America.
