

The Wagner-Smith T-3BWT-10-72H-FT4 is a hydrostatic bullwheel tensioner engineered to tension one, two, or three conductors simultaneously. Its hydrostatic pressure system provides smooth, consistent control throughout each pull. For both convenience and safety, all controls are centralized at the operator's station, and the unit features integrated braking.

### Key Features

- Hydrostatic pressure with a relief valve allows for constant line tension control.
- Real time display allows users to monitor line tension, speed, and system performance, as well as review stored job data.
- Each bullwheel assembly is mounted individually to the trailer and operates through its own dedicated hydraulic controls.
- Centralized controls provide an operator with simple, knob-based bullwheel operation.

Unit Performance	
Maximum Tension Rating	10,000 lbs.
Line Speed at Max Tension	4 mph
Tension Rating at Max Speed	5,000 lbs.
Maximum Speed Rating	8 mph
Standard Features	
Tensioning	Single, bundle or triple conductor tensioning capability
Bullwheel Diameter	72" (bottom of groove)
Number of Grooves	5" - 2 1/8" diameter
Replaceable Segments	Yes
Bullwheel Offset	Canted for LH or RH lay conductor
Bullwheel Lining	Elastomer (bolt-on)
Bullwheels	Precision machined steel
Engine	74 HP FT4
Fuel Capacity	19 gallon
Hydraulic Capacity	120 gallon
Input Fairlead	Multiple roller type
Output Fairlead	Single roller type with side vertical rollers

\*Bullwheel: 5-groove (standard); 3-groove configuration available for twisted-pair applications.

Towing	
Suspension	Leaf spring
Configuration / Axle Rating	Tandem 22,500 lbs. each
Front Hitch	Fifth wheel - King pin
Trailer Electrical Connection	7 way socket
Grounding	Front/rear mounted lugs
Lighting	DOT Regulation LED
Brakes	ABS air brake system
Tie Downs	Tie downs on trailer
Dimensions & Weight	
Overall Dimensions (L x W x H)	46' X 8'6" X 12'6"
Net Weight (empty)	50,000 lbs.
GAWR	86,000 lbs.
GVWR	24,020 lbs.
Tongue Weight	15,857 lbs. (King Pin Weight)

Rental Item #: **45072-36R**
